Dear Messrs. Kinzer, Umek, Aromi, and Ms. Delozier:

Re: Extension of Time to Complete Corrective Measures to Identify 90-Day
Accumulation Areas per Notice of Correction issued October 19, 1999

The Washington State Department of Ecology (Ecology) issued a Notice of Correction (NOC) dated October 19, 1999. The NOC listed one violation by the U.S. Department of Energy (USDOE) and its contractors regarding the Hanford Resource Conservation and Recovery Act (RCRA) Permit Condition to maintain a current listing of all 90-day accumulation areas on-site. The NOC included a corrective measure to voluntarily remedy the non-compliant condition by submitting a report describing the means by which a current listing of all 90-day accumulation areas on the Hanford Site will be maintained.

In an October 22nd response, you have requested an additional thirty (30) days to complete this corrective measure in order to coordinate the response among the Permittees. This letter grants your request; however, the completed corrective measure will be due November 24, 1999, rather

Messrs. Kinzer, Umek, Aromi, and Ms. Delozier:

than November 25th, as recommended in your letter. November 25th is a holiday (Thanksgiving Day). Please refer to the October 19th NOC to ensure all components of the corrective measure are incorporated into your November 24th response.

If you have any questions regarding this letter, please feel free to contact me at (509) 736-3031.

Sincerely,

Bob Wilson
